CeBIT 2014
78 m², 13 x 6 m

REFRESHINGLY DIFFERENT
The IT service provider regio iT GmbH is a fair and reliable partner for councils and schools, energy providers and waste disposal contractors as well as non-profit organisations. Regio iT is headquartered in Aachen and provides strategic and project-related IT consulting, integration, IT infrastructure and full-service support. During the CeBIT 2014 fair, the company demonstrated its expertise as a service provider for primarily public-sector institutions, which can bring a breath of fresh air to IT structures through new ideas.

Working together with the agency 'wesentlich.visuelle kommunikation', a concept for the graphics was developed that really comes to life with a new approach to the spatial design. Instead of small meeting cubicles, this stand offers plenty of space for personal meetings in an open setting under the pleasant ceiling sail.

Temporary architecture for long-lasting brand success.
Stand construction from Aachen for all of Europe.

Design – Planning – Realization

Our own success is closely linked to that of our customers. This is why we always focus on those factors that make our customers successful. The first and most important step in each project is to listen and to understand the goals. Good design as well as a high-quality and technically sound solution are a must.

What makes us different is that we see it as our duty to provide security for our customers. The security each customer needs, to know that his pressing tasks that are critical for success are in good hands.
