

SWISSPACER

Fensterbau Frontale 2018

(10 x 10,5 m)

MONUMENTAL LIGHTNESS

Giant figures of epic proportions cast their gaze over the 2018 Fensterbau Frontale trade fair, fascinating visitors and drawing attention to the SWISSPACER exhibition stand from afar.

At the core of the design concept was our customer's desire for a larger than life, far-reaching impression to capture attention from every direction.

SWISSPACER

(10 x 10,5 m)

The wall panels are an impressive five metres high. But despite these dimensions, the skilfully-crafted design maintains a light, open and inviting feel. The colossal walls are offset and surrounded by discreet grey panels. The resulting effect is of free-standing, elegant giants, who perfectly capture the message of the quality-conscious SWISSPACER brand.

The exhibition stand offers a convenient flexible design, which can be reused for multiple trade fairs, with various themes. The graphic panels can therefore be individually adjusted.

Temporary architecture for long-lasting brand success. Stand construction in Aachen for all of Europe.

Design – Planning – Realization

Our own success is closely linked to that of our customers. This is why we always focus on those factors that make our customers successful. The first and most important step in each project is to listen and to understand the goals. Good design as well as a high-quality and technically sound solution are a must.

What makes us different is that we see it as our duty to provide security for our customers. The security each customer needs, to know that his pressing tasks that are critical for success are in good hands.
