ADAPTABLE AND CUSTOMIZED  
Highly specialised plastics are the core business of AGC Chemicals. They are used around the world especially in aeronautical and aerospace engineering. AGC Chemicals conducts its European business from London.

We devised a special concept for AGC Chemicals' exhibition stand. This stand can be adapted to meet specific requirements prior to being used at each new trade show. Because we have been collaborating with the company for several years, we can usually re-design their stand with only one telephone call. As a matter of principle, we always thoroughly check the parts in our storage facility before events and repair these if necessary. In this way we can guarantee that our customers always have an exhibition stand which is flawless.

## Temporary architecture for long-lasting brand success. Stand construction from Aachen for all of Europe.

Design – Planning – Realization

Our own success is closely linked to that of our customers. This is why we always focus on those factors that make our customers successful. The first and most important step in each project is to listen and to understand the goals. Good design as well as a high-quality and technically sound solution are a must.

What makes us different is that we see it as our duty to provide security for our customers. The security each customer needs, to know that his pressing tasks that are critical for success are in good hands.
