STRIKING & STANDARDISED

The company Gebrüder Becker GmbH is a world-wide supplier of top-of-the-line, user-specific compressed air and vacuum pumps for different machine builders. The company is regularly represented at industry trade fairs throughout Europe.

modulated exhibition stands since 2007

(variable stand sizes)

The standardised design for the stand has enabled us to create a brand image with a high recognition value. The concept has so far been able to be adapted to any stand area as it incorporates modular construction elements that were developed especially for this customer. The precise proportions and high-quality materials of the stand really support Gebrüder Becker's corporate values and objectives.

Temporary architecture for long-lasting brand success. Stand construction from Aachen for all of Europe.

Design – Planning – Realization

Our own success is closely linked to that of our customers. This is why we always focus on those factors that make our customers successful. The first and most important step in each project is to listen and to understand the goals. Good design as well as a high-quality and technically sound solution are a must.

What makes us different is that we see it as our duty to provide security for our customers. The security each customer needs, to know that his pressing tasks that are critical for success are in good hands.
