In terms of comfort and ergonomics, the design of the **MeRaumGLOBAL-DESK** is based on the applicable workstation design guidelines. Distances from the screen and the sitting and standing height can be adjusted to suit the user.

Thanks to the integrated castors in the base, the **MeRaumGLOBAL-DESK** can be repositioned quickly and easily.

In addition, the equipment holders can be folded up, so that the desk takes up as little space as possible when not in use.

Design – Planning – Realization

Our own success is closely linked to that of our customers. This is why we always focus on those factors that make our customers successful. The first and most important step in each project is to listen and to understand the goals. Good design as well as a high-quality and technically sound solution are a must.

What makes us different is that we see it as our duty to provide security for our customers. The security each customer needs, to know that his pressing tasks that are critical for success are in good hands.
