OUTSTANDING VISIBILITY FROM AFAR

Our customer alphametall has been a specialist in the design, construction, machining, sales and distribution of semi-finished aluminum products for more than 20 years, and is also a consultant to the industry.

MeRaum designed an impressive exhibition stand for the company, which showcased the benefits of aluminum as a lightweight metal.

The striking UFO-like eyecatcher featuring three asymmetrical columns can be seen prominently from a distance. The unique sculptural appearance of the exhibition stand reflects the customer's wish to be easily and clearly visible. In addition, our exhibition stand concept ensures that alphametall "stands out" from the competition in the truest sense of the word.

Temporary architecture for long-lasting brand success. Stand construction in Aachen for all of Europe.

Design – Planning – Realization

Our own success is closely linked to that of our customers. This is why we always focus on those factors that make our customers successful. The first and most important step in each project is to listen and to understand the goals. Good design as well as a high-quality and technically sound solution are a must.

What makes us different is that we see it as our duty to provide security for our customers. The security each customer needs, to know that his pressing tasks that are critical for success are in good hands.
