### PRESENTING SECURE MOBILITY

Those who want stay up-to-date on the subject of traffic and mobility shouldn't miss the Intertraffic exhibition held every year in Amsterdam. Our customer, RTB, known for their innovative road traffic solutions was also right at home at this year's fair. MeRaum set the perfect scene with a 120 m<sup>2</sup> island stand.

(10 x 12 m)

The secure mobility product presentation is in the foreground of our stand design. White wall panels and signpost like displays are a fitting background to complement the RTB products and the user-friendly comic-style graphics.

(10 x 12 m)

The comfortable "grass" carpet turned out to be the icing on the cake, inviting the exhibition visitors to rest their weary feet and enjoy a moment of peace – a very welcome gesture.

## Temporary architecture for long-lasting brand success. Stand construction in Aachen for all of Europe.

Design – Planning – Realization

Our own success is closely linked to that of our customers. This is why we always focus on those factors that make our customers successful. The first and most important step in each project is to listen and to understand the goals. Good design as well as a high-quality and technically sound solution are a must.

What makes us different is that we see it as our duty to provide security for our customers. The security each customer needs, to know that his pressing tasks that are critical for success are in good hands.
